Product Catalog

2025

Introduction

Star's solutions provide fast, reliable printing for traditional POS, ticketing and labeling applications along with the flexibility needed to integrate with the very latest Tablet, Cloud and Omni-Channel POS and hospitality solutions.

Star's dedication to leading advances in POS innovation alongside unique Star-developed technologies such as CloudPRNT™ and new SteadyLAN™ has ensured successful installations into some of the world's largest retailers.

X

COMING

A large, bold white number '4' is the central focus, set against a dark, gradient background. To the left, a dark, cylindrical pedestal supports a glowing, spherical object. The scene is lit from the left, creating soft shadows and highlights on the pedestal and the sphere. The overall aesthetic is clean, modern, and minimalist.

4

G SOON

Technology

StarXpand

For next generation mobile app development, Star has introduced an industry-first **software development kit (SDK)** for Star printer control for the popular cross-platform framework, React Native.

The SDK is available for Star's current printer range and helps reduce development time and maintenance costs associated with printer control and connection **without restrict about Emulation.**

Thermal Printer

Star TSP143 Cloud

Star Micronics is proud to introduce the next-generation TSP100 series which is TSP143 Cloud that matches the recent next-generation store solutions with dual interface USB and LAN. It contributes to usability and flexibility in POS and other store systems and efficient inventory management.

mCollection

Star mC-Print3

3-inch thermal printer offers multiple connectivity options including USB, Lightning, Bluetooth, LAN, and CloudPRNT, making the printer adaptable to any future POS system changes. Additionally, multiple connectivity allow for the easy integration of common software.

mCollection

Star mC-Print2

mC-Print2 It is compact and can be used in retail stores. As well as printing receipts in digital form. Ideal for a wide range of applications, from traditional POS systems to connecting to tablet devices or hospitality services.

mCollection

Star mPOP

Star Micronics we've developed the world's first conceptually driven, combined point of purchase cash drawer and printer in response to the need for an easily integrated mobile POS system.

Dot Matrix Printer

Star SP700

SP700 is a reliable receipt and kitchen printer for retail and hospitality applications with splash resistant and easy-clean design along with options such as two color printing, wall mount bracket and integrated buzzer alarm option

Star SP290

The SP290 is a compact, robust and reliable matrix slip printer ideal for printing cut sheet media such as pre-printed company branded multi part receipts or forms / cheques.

Mobile Printer

Star SM-L200

The SM-L200 2-inch Bluetooth mobile receipt and label printer is designed specifically for the growing mobile market in retail, hospitality, logistics and transportation. SM-L200 also supports Bluetooth low energy (BLE 4.0) technology for all iOS mobile devices

Star SM-S230i

Super compact Bluetooth mobile receipt printer capable of pairing directly with the Apple iPad®, iPhone®, Android™, Windows™ and Linux™ devices. MFi Certified, The SM-S230i features automatic Bluetooth connection with previously paired iPads or iPhones, making it perfect for everyday use in busy environments

Star SM-T300i

The SM-T300i offers advanced Apple MFi Certification, allowing it to pair seamlessly with iPad®, iPhone® and iPod Touch®, along with all Bluetooth SPP (Serial Port Profile) devices including Android™, Windows™, Linux™ with additional wired serial connection flexibility.

Star SM-T400i

The Star SM-T400i is a mobile printer offering simple, smart Bluetooth printing. Compatible with all major operating systems including iOS™, Android™, Windows™ and Linux™ with additional wired serial connection flexibility.

Kiosk Printer

SK1-211/311

SK1-211/311 is small and ultra-light weight, designed for wide variety of systems and equipments. have a autoloading function and can be selectable for partial cut or full cut. Maximum printing speed 250mm/sec and can support maximum diameter 120mm paper roll as standard.

SK4-21/31

SK4-21/31 is small and compact design, can be setup 3-ways of paper position. Support printing speed 150mm/sec. If you are looking for a printer which A good balance of performance and cost, can be selectable this model.

Label Printer

mCollection

Star mC-Label 3

The mC-Label3 caters to all your needs. It's also Cloud Ready, able to connect to Star Micronics Cloud Services. With Star's Cloud Services, the mC-Label3 offers the flexibility to build, store, and later print multiple static receipt/label images at the touch of a button with One Touch Label

Star TSP143 Cloud SK

TSP143 Cloud SK is liner-free label printer designed to work with liner-free labeling applications. Repositionable thermal labels can stick to virtually any surface, and can be removed easily and reapplied leaving behind no residue. The liner-free labels are an alternative to using silicone-lined labels or tape.

Star TSP700II

TSP700II ideal for fast, high volume receipting applications which require high quality text, graphics and barcode TSP700II is compatible with the majority of operating platforms including Windows, iOS and Android

Star TSP800II

The TSP800II is a unique and versatile receipt printer. It is capable of printing on print media up to 112 mm wide. Combined with the unique A4 raster driver capable of scaling A4 images onto 112 mm wide paper, the TSP800II can be incorporated as a receipt printer, ticket printer.
