

### How to modify power adapter to support AC Converter for Sanei Kiosk

(1) Cut cable of adapter.

(2) Connect cable between Adapter side and AC cable side.

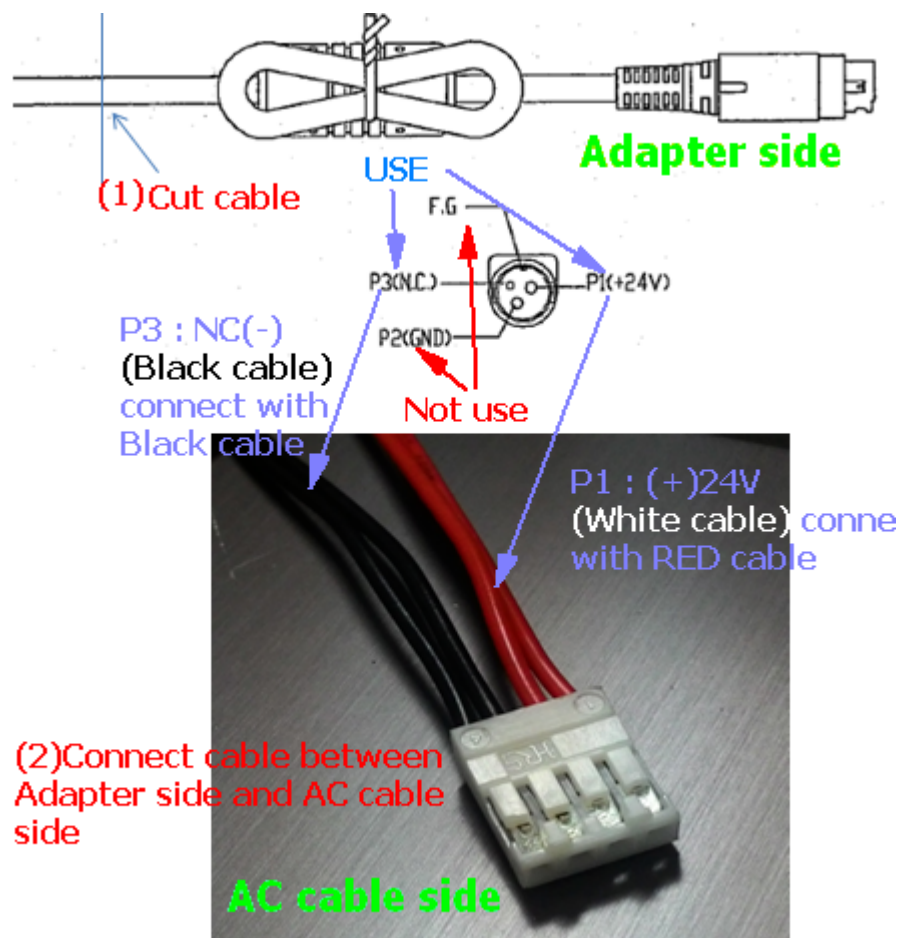

- White cable (of adapter) with 2 cable Red cable (of AC cable)

- Black cable (of adapter) with 2 cable Black cable (of AC cable)

(Note : We necessary to connect 2 cable of AC cable)

(Note2 : We can cut P2(GND cable) and F.G (foil aluminum)

(3) Solder the connection point, then wrapped with tape or insulating tape to completely.

Thanks & Regards
