How to update firmware of SM-L300 by USB Cable

1. Connect printer to PC/Laptop by USB Cable, then will get the printer driver in Control > Devices & Printers

2. Go to folder SM-L300\SM-L300_Ver13\SM-226_L300_Ver13_201709\FW_Rewriting_Tool\FW_RewriteTool_for_SM-L_V1.1.0.0_20170411 and open program 'FW_RewriteTool_for_SM-L.exe' for update firmware

3. Select the printer model that you want to update then click 'Connection Test' for testing communication to printer.
