The screenshot shows the 'Bluetooth Settings' screen. At the top, there is a blue header with a back arrow, the text 'Bluetooth Settings', and a refresh icon. Below the header, there are two input fields: 'Device Name' with the value 'STAR mPOP-L0308' and 'iOS Port Name' with the value 'mPOP'. To the right of these fields are two toggle switches: 'New Pairing Permission' (which is turned on) and 'Auto Connection' (which is also turned on and highlighted with a red box). Below the 'Auto Connection' toggle is an 'Apply' button, also highlighted with a red box.

Device Name : Alphanumeric characters and symbols. (1 to 16 letters.) **\*In case of blank, it will not be changed.**

iOS Port Name : Alphanumeric characters and symbols. (1 to 16 letters.) **\*In case of blank, it will not be changed.**

**\*If the multiple printers which have the same printer name are paired, you cannot change settings. Please cancel pairing for printers other than the printer you would like to change.**
